

RS9120WRU1

## Integrated Fridge Freezer 906mm, 525L, Ice & Water

### Integrated

Fisher & Paykel fridge freezers are designed to seamlessly integrate into your kitchen. This right hinge model fits flush and will need to be purchased with a stainless steel panel to access the water dispenser.

### Integrated

## Dimensions

Depth	606mm
Height	2028mm
Width	906mm

## Features & Benefits

### Clever energy

Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

### Easy installation

Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. They are designed for minimal gaps with adjustable front and rear feet to allow for uneven floors alongside adjustable door panels that can be customised to match your kitchen.

### Design quality

Our fridges are designed and built using quality materials. We use solid glass for our fridge shelving.

### Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

### Water on tap

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your fridge.

### Easy cleaning

Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.
